EVERYTHING YOU NEED FOR IMMEDIATE TREATMENT OF WOUNDS IN ONE CONVENIENT PACKAGE

# AlphaCleanse™ Antimicrobial Wound Care System

## FEATURES

- Igloo® Shield for backsplash prevention
- Probe applicator for access to deep, tunneling wounds
- High volume patent-pending fan spray
- 8 ounces of NovaGran™ hypochlorous acid solution
- Full bottle evacuation in less than a minute with manual compression
- LiquidLock™ Super Absorbent Pad

## BENEFITS

- Pressurized wound irrigation removes debris and necrotic tissue
- Helps reduce odor-causing bacteria
- Highly cost effective and very efficient
- Reduces risk of cross-contamination by preventing backsplash
- LiquidLock™ pad holds 3x the volume of bottle for easy cleanup
- Promotes healing of the wound; no need for rinsing

AlphaCleanse™ Antimicrobial is a cost-effective, high-volume wound irrigation and cleansing system. With the Bionix Igloo® shield and super absorbent LiquidLock™ pad, it is the complete all-in-one kit for effective wound treatment.
