

Eliminate the mess of cerumen removal during irrigation

OtoClear® Ear Irrigation Tip

Safe, soft, comfortable 3-streamed-tip that prevents the risk of over-insertion

bionix®

MADE IN THE USA

FEATURES

- Made with soft, flexible material for patient comfort
- Uses three divergent streams of water to safely loosen cerumen
- Directs water toward the ear canal wall instead of at the tympanic membrane
- Patented design prevents backsplash

BENEFITS

- Compatible with a variety of devices
- Improves efficiency and patient safety
- Reduces patient discomfort
- Reduces messy clean up of cerumen removal during irrigation

Bionix OtoClear Ear

Irrigation Tip is a soft, flared, 3-streamed-tip that improves patient safety and eliminates the mess of cerumen removal during irrigation.

It's compatible with a variety of delivery devices, meeting personal preferences of healthcare professionals.

Refer to the package insert supplied with product for specific information on indications for use, contraindications, warnings, and precautions.

Rx ONLY
