## ABI-Q

The ABI-Q Rapid-Test System swiftly diagnoses Peripheral Artery Disease (PAD) in-office with accurate results and comprehensive reports available within seconds. Early detection is crucial, and the simpleABI-Q simplifies testing, enhances patient outcomes, and presents financial advantages through reimbursement opportunities. Its cost-effectiveness and portability make it suitable for primary care settings, especially in scenarios involving diabetic patients and calcified or incompressible arteries.

### ABI-Q Exams

- ABI-Q Rapid Screen

### ABI-Q Includes:

- Cuffs
