

Clearing The Airway Is Our #1 Priority

THE KEY TO A SUCCESSFUL INTUBATION IS RELIABLE SUCTION

SSCOR manufactures emergency portable suction devices for hospital and pre-hospital settings.

S-SCORT® III

Rugged, Reliable and Economical

Built for today's first responders! Since July of 1991 the S-SCORT III has proven itself to be a durable, reliable and economical EMS suction device.

SSCOR QUICKDRAW®

Designed to Fit in Your First-in-Kit

The SSCOR Quickdraw can function as an extremely efficient handheld suction, or as a small, yet powerful and effective traditional suction pump. Powered by off-the-shelf alkaline batteries.

The SSCOR Duet

Powerful, Portable Hospital Suction

The Duet is perfect for the hospital crash cart, patient transport, surgi-center backup, long term care facilities and more.

The SSCOR DCell

Powered by Off-the-Shelf Alkaline Batteries

The world's first and only full-size portable suction device powered by off-the-shelf alkaline batteries. Intended for storage for extended periods in disaster preparedness equipment caches where it does not need to be maintained on charge.

Clearing The Airway Is Our #1 Priority

THE SSCOR DUCANTO CATHETER - UNIQUELY SUITED FOR THE SALAD TECHNIQUE

SSCOR DuCanto Catheter®
Single Use, Non Sterile, Rigid Suction Catheter

This hyper-curved suction catheter is shaped more like a patient's airway and has a 0.26" inner diameter. It also has a larger inside diameter than a standard Yankauer suction tip that facilitates the removal of fluids as well as solid material.

SSCOR DuCanto Catheter® Kit
With 3' or 6' Suction Tubing

The SSCOR DuCanto Catheter Kit is now available pre-assembled with 3 ft. or 6 ft. patient connecting tubing in a plastic pouch to speed up response time and improve patient care.
