PREMIUM SERIES MEDICAL RECLINERS

THE ART & SCIENCE OF PATIENT COMFORT

BEAUTY THAT HEALS

Medical furnishings can enhance a positive patient experience based on appearance as well as function. Winco premium recliners are designed to provide patient comfort and provide a sense of independence.

An assortment of healthgrade vinyl options are available. For a more residential feel, pair two vinyl options (shown at right). At Winco, we believe providing beautiful quality solutions contributes to more positive patient response.

ERGONOMICS THAT MATTER

Easily accessed controls provide an enhanced patient experience that can aid in accelerating recovery time.

Foot operated controls, waist level recline levers, and easy-to-use side tables help reduce the need for caregivers to bend while enabling them to be more efficient.

WINCO ADVANTAGE

Attention to detail and quality are the cornerstones on which Winco designs and manufactures all of their products.

Winco's full line of medical furnishings are designed to promote greater patient independence, increased caregiver safety, and enhanced facility efficiency.

Verø Swing-Arm shown in Aquamarine (56) with optional urethane arms, 5" casters, and side table with wood tabletop upgrade

VERŌ

Verō can be configured in hundreds of combinations including with or without Trendelenburg, with or without power recline, in standard or XL capacity, and with pedestal feet or casters.

180° Swing Arm

Verō Swing-Arm shown in Luggage (74) with 5" casters

Verō PRC shown in Bottle (85) and Limestone (57)

Verō PRC shown in Bottle (85) and Limestone (57) with optional urethane arm caps, 3" dual casters, and headrest cover & pillow set

DURABLE BEAUTY BUILT FOR HEALING

Verō's modular design helps you choose a configuration that is perfectly suited to meet the specific needs of your facility and your patients.

AUGUSTINE

Designed to mimic home furnishings, the Augustine's low profile and spacious seat provide ease of entry and patient comfort.

Shown with footrest fully extended.

Shown in Smokehouse and Meteor with optional heat & massage controls and headrest cover.

Shown with optional neck pillow & headrest cover set.

CLINICAL ENHANCEMENT

A quick release seat provides full access to the interior section of the recliner for simple, quick and thorough cleaning.

INVERNESS

Inverness provides premium comfort with 24-hour layflat functionality for overnight treatment. Inverness features bilateral controls, front-locking brake tabs, an infinitely adjustable backrest, foot-operated swing arm release, and a locking footplate.

180° Swing Arm

Shown in Putty and Plata. Standard features shown here.

Recliners shown with Putty and Plata.

ERGONOMIC UTILITY ENGINEERED TO LAST

Large, 5" casters allow effortless chair movement. Independent locking casters and fixed front casters provide stable steering. Bilateral, 180° swing arms allow barrier-free patient transfer and innovative safety shields make cleaning a snap.

UPHOLSTERY GUIDE

Winco has over 50 healthcare grade vinyl options to choose from.

The healthcare environment is enhanced by quality products and beautiful aesthetics. Winco's Premium Recliner Collection fosters personalization by offering single color or dual color upholstery options. Whether one or two vinyls per chair are desired we make each recliner to meet your specifications and needs.

We also welcome your vinyl selection.

Winco also accepts your custom upholstery option which means you can supply exactly the coverings you want for your project.

COLOR SWATCH COLLECTION

The above is a representative sample of Winco stocked vinyls.

Certain restrictions and fees will apply on two vinyl and custom vinyl selections. Ask a Winco team member for details.

PREMIUM SERIES MEDICAL RECLINERS

MATCH YOUR PURPOSE

Start with one of three base models (Augustine, Inverness, or Verō), select the configurations to best suit your facility needs, add the options and accessories to aide in elevating patient experience.

OPTIONS & ACCESSORIES

Select from multiple options & accessories designed to enhance the patient and caregiver experience: side tables, pillows, heat & massage, and more.

Many more options available

VERŌ

TREATMENT RECLINER

PREMIUM SERIES

Verō PRC with optional 3" dual casters, urethane arm caps and headrest cover & pillow set – shown in Bottle (85) and Limestone (57).

Continuously evolving patient care requirements create opportunities for enhanced solutions. The Verō provides total flexibility in matching your application with exactly the features you require and the comfort your patients demand.

The Verō recliner's modular design allows clinicians to choose the best configuration to perfectly suit their specific needs:

- New Power Recline model (Verō PRC)!
- Multiple recline options and infinite position backrest promote patient independence.
- Bilateral and foot-operated controls provide clinician comfort and convenience.
- Durable construction and easy-to-clean surfaces enable increased efficiency.

TRENDELENBURG

Verō Recliners are available with Trendelenburg (6 series) or without (5 series). On the **Verō**, Trendelenburg is controlled with bilateral access foot levers, reducing clinician's need to bend to reach controls. PRC models (with power recline) offer push-button recovery from Trendelenburg to minimize potential for clinician back strain.

Exclusive to **Verō**, Secure-Glide™ provides gentle patient positioning while avoiding injury to caregivers. The controlled descent helps eliminate any need or natural reflex to manually control the rapid patient descent in emergency situations.

Secure-Glide™ for stress-free positioning

Foot lever for exclusive Secure-Glide™ Trendelenburg descent

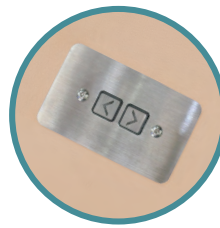

RECLINE CONTROL OPTIONS

All **Verō** models feature convenient and comfortable infinite positioning of the back rest. With **Verō**, you have three options available for controlling recliner positioning:

Power Easy recline and recovery from trendelenburg at the push of a button. One switch standard. Dual switches and/or pendant options available.

Gas Assist provides positive locking position of the backrest angle with gas cylinder assisted operation. Locking action is controlled by easily accessed bilateral control levers.

Push-Back allows seamless positioning of the desired back rest angle. The gravity operated, gentle resistance designed into the chair maintains selected positioning.

Gas Assist
5X and 6X models

Push Back
5X and 6X models

ARM OPTIONS

Functionality is enhanced through the availability of two arm configurations. Standard fixed arms are cost-effective, sturdy and durable. Optional swing arms allow 180 degree movement of the arm for convenient cleaning access and barrier-free patient transfer.

Swing Arm Option Swing arms are ideal when patient transfer and easy access are important considerations. Each side of the **Verō** is easily opened with convenient foot controls.

Fixed Arm Option Fixed arms are suitable for most general purpose operations when transfer of patient is not required or where working space is limited.

Upholstered Swing Arm Shown

ARM CAP OPTIONS

Urethane Cap Option Urethane arm caps provides a unique, upscale appearance and added durability.

Urethane Arm Cap
Option

MATCH YOUR PURPOSE

The **Verō** modular design allows choices in how the chair is anchored or moved. Whether stationary or for patient transport*, **Verō** has a perfect solution.

Pedestal Feet When mobility is not required or desired, pedestal feet provide a less clinical look and a lower seat height.

Casters provide ease of movement for cleaning, maintenance and staging. Two size options are available. Both include lockable, foot lever release controls.

3" Casters Lower seated height with the flexibility of mobility.

5" Casters are the optimal choice for ease in movement.

It is recommended that after moving the chair always lock the casters prior to patient ingress/egress.

FOOT PLATE

Patients will appreciate the added comfort of the retractable foot plate.

The optional footplate is available for models with 5" casters. Its sturdy design is weight-bearing.

The footplate locks as weight is applied to prevent unwanted or unexpected movement.

Note: Patients should be assisted at all times by a staff member when using the footplate.

Footplate is easily positioned by foot.

PUSH HANDLE OPTION

The push handle option is recommended in combination with footplate models if the chair is to be used for in-facility patient transport*.

**Only 5X, 6X or PRC models with footplate and push handle are suitable for patient transport. See User Manual for important details.*

SIZE / CAPACITY OPTIONS FOR MAXIMIZED FLEXIBILITY

The **Verō** is available in two sizes: standard and X-large. No matter which size is specified, **Verō** offers comfort, beauty and durability.

- Standard seat width is 22.5" between arms with a 350 pound weight capacity. This chair makes petite to average size patients feel right at home.
- X-large seat width is 26.5" between arms with a 500 pound weight capacity, making it suitable to care for Bariatric patients and provide a comfortable experience.

X-Large 500 lb Capacity

Standard 350 lb Capacity

TABLE OPTIONS

There are three table options; standard, pivot and premium. All tables on the **Verō** are available in left, right or both configurations and can be ordered in a variety of combinations to suit facility requirements and clinician preference. All feature a stain resistant, non-porous material and all but the pivot table have a lip edge design to contain small spills.

Standard Table

Pivot Table

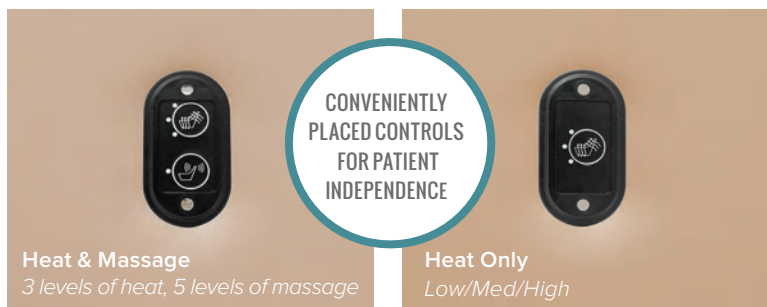

Premium Table

Each standard table adds 2.75" (2.5" for XL) to the overall chair width when lowered. Each premium table adds 1.25" (1" for XL) to the overall chair width when lowered. This added width should be considered when ordering table options appropriate for your facility.

- **Standard table** This value priced lift-to-raise-and-lower table will be familiar to current Winco Elite series owners.
- **Pivot table** swivels so patient can have the table in front of them.
- **Premium table** features an intuitive single hand up/down feature with audible positive lock and release.

COMPLEMENT DESIGN & UTILITY

- **Heat Only Option** provides three patient-selected soothing warmth ranges for maximum comfort.
- **Heat and Massage Option** adds a selection of five gentle vibrating massage modes to the heat option, enhancing patient comfort level.
- **Optional Accessory Hook** The stainless steel hook remains flush until needed, making it a convenient choice for a Foley bag. Available for either left, right or both sides.
- **Optional IV Pole and Holder** for either left, right or both sides.
- **Headrest Cover and Armrest Covers** Covers extend the life of the headrest and armrests and are fastener-free, making them easy to lift on and off.

VERŌ PRC

POWER RECLINING CHAIR

KEY FEATURES

- Sealed two-button power switch embedded on the side of the chair (dual switches and/or wired pendant options available)
- Easy to clean and service
- Durable construction - thoroughly tested to withstand the demands of healthcare environments
- Power-return from Trendelenburg (Trendelenburg models only)
- **4-year limited warranty** on the power recline control module and actuator motor

Switch to the new Verō PRC

The Verō Power Reclining Chair (PRC) is the newest addition to our popular line of infinitely configurable Verō recliners. Verō PRC is comfortable and convenient for the patient while offering exceptional benefits to the caregiver and added value for facility managers. Caregivers can now assist patients up to 500 lbs at the push of a button with no fear of strain. Trendelenburg models are thoughtfully designed with the capability to **return patients upright from the trendelenburg position**, minimizing potential for caregiver injury.

A sealed power switch is embedded on the patient right side of the recliner for easy access. Add an optional second switch, at patient left side and/or a wired hand pendant for additional patient and caregiver convenience. Verō PRC powers the entire line of Verō recliners offering unmatched configurations, durability, patient comfort and caregiver peace of mind.

Contact Winco today to arrange for a demonstration of the Verō PRC or to request a quote!

AUGUSTINE

TREATMENT RECLINER

PREMIUM COLLECTION

Developed in conjunction with Oncology clinics, the Augustine was designed to be 100% patient-centric; to be comfortable and help put the patient at ease.

- Enhanced range of motion for optimum, patient selectable, positioning
- Spacious seat provides personal space and luxurious comfort
- Thoughtful features to ease chair movement and cleaning
- Unmatched stability and refined styling with concealed casters

Augustine demonstrates Winco's commitment to developing products that meet the needs of the people that live in and touch the recliners on a daily basis.

**ENHANCING THE PATIENT
AND CAREGIVER EXPERIENCE.**

SERENITY: PERSONAL SPACE & INDEPENDENCE

Often the medical treatment environment unavoidably impinges upon the patient's personal space. Augustine addresses this with:

- A low seat height to ease entry and exit
- A spacious 26" seat width for extra room to stretch out
- Easy access recline controls that allow patients to obtain desired positioning without assistance

When asked about their needs, patients were clear they wanted a chair that provided them with independence and a relaxing experience.

AUGUSTINE IS DESIGNED TO MIMIC FURNITURE THAT YOU WOULD BE PROUD TO HAVE IN YOUR OWN HOME

The Central Front Braking option

CLINICIAN INPUT: DESIGN ENHANCEMENT

Facility managers requested an easier way to thoroughly clean the recliner. Once removed, the Quick-Release Seat provides full access to the inner sides of the recliner, backrest and seat for fast and thorough cleaning.

Simply pull-up at the front and slide forward. The seat is securely tethered so it won't get separated from the recliner. To replace simply line up the tabs, slide into place and push down – done!

QUICK RELEASE SEAT: NO NEED FOR ANY TOOLS AND RISK OF LOST PARTS

CLINICAL UTILITY: PRACTICAL INNOVATION

Augustine has the clinical features required in a high use medical environment – casters for ease of movement, rigorously tested for durability and thoughtful features for ease of cleaning. These chairs bring dignity, comfort and grace back to the clinical setting without forfeiting the necessary clinical utility.

- Standard rear central caster lock for impressive stability
- Quick Release Seat is easily removed for efficient and thorough cleaning
- An optional Central Front Brake allows secure braking from the front of the chair, with no obtrusive levers or mechanisms to catch on or impede staff, patients or visitors.

TRENDELENBURG RECLINERS

6000 Series

PREMIUM SERIES MEDICAL RECLINERS

THE ART & SCIENCE OF PATIENT COMFORT

BEAUTY THAT HEALS

Medical furnishings can enhance a positive patient experience based on appearance as well as function. Winco premium recliners are designed to provide patient comfort and provide a sense of independence.

An assortment of healthgrade vinyl options are available. For a more residential feel, pair two vinyl options (shown at right). At Winco, we believe providing beautiful quality solutions contributes to more positive patient response.

ERGONOMICS THAT MATTER

Easily accessed controls provide an enhanced patient experience that can aid in accelerating recovery time.

Foot operated controls, waist level recline levers, and easy-to-use side tables help reduce the need for caregivers to bend while enabling them to be more efficient.

WINCO ADVANTAGE

Attention to detail and quality are the cornerstones on which Winco designs and manufactures all of their products.

Winco's full line of medical furnishings are designed to promote greater patient independence, increased caregiver safety, and enhanced facility efficiency.

Verø Swing-Arm shown in Aquamarine (56) with optional urethane arms, 5" casters, and side table with wood tabletop upgrade

VERŌ

Verō can be configured in hundreds of combinations including with or without Trendelenburg, with or without power recline, in standard or XL capacity, and with pedestal feet or casters.

180° Swing Arm

Verō Swing-Arm shown in Luggage (74) with 5" casters

Verō PRC shown in Bottle (85) and Limestone (57)

Verō PRC shown in Bottle (85) and Limestone (57) with optional urethane arm caps, 3" dual casters, and headrest cover & pillow set

DURABLE BEAUTY BUILT FOR HEALING

Verō's modular design helps you choose a configuration that is perfectly suited to meet the specific needs of your facility and your patients.

AUGUSTINE

Designed to mimic home furnishings, the Augustine's low profile and spacious seat provide ease of entry and patient comfort.

Shown with footrest fully extended.

Shown in Smokehouse and Meteor with optional heat & massage controls and headrest cover.

Shown with optional neck pillow & headrest cover set.

CLINICAL ENHANCEMENT

A quick release seat provides full access to the interior section of the recliner for simple, quick and thorough cleaning.

INVERNESS

Inverness provides premium comfort with 24-hour layflat functionality for overnight treatment. Inverness features bilateral controls, front-locking brake tabs, an infinitely adjustable backrest, foot-operated swing arm release, and a locking footplate.

180° Swing Arm

Shown in Putty and Plata. Standard features shown here.

Recliners shown with Putty and Plata.

ERGONOMIC UTILITY ENGINEERED TO LAST

Large, 5" casters allow effortless chair movement. Independent locking casters and fixed front casters provide stable steering. Bilateral, 180° swing arms allow barrier-free patient transfer and innovative safety shields make cleaning a snap.

UPHOLSTERY GUIDE

Winco has over 50 healthcare grade vinyl options to choose from.

The healthcare environment is enhanced by quality products and beautiful aesthetics. Winco's Premium Recliner Collection fosters personalization by offering single color or dual color upholstery options. Whether one or two vinyls per chair are desired we make each recliner to meet your specifications and needs.

We also welcome your vinyl selection.

Winco also accepts your custom upholstery option which means you can supply exactly the coverings you want for your project.

COLOR SWATCH COLLECTION

The above is a representative sample of Winco stocked vinyls.

Certain restrictions and fees will apply on two vinyl and custom vinyl selections. Ask a Winco team member for details.

PREMIUM SERIES MEDICAL RECLINERS

MATCH YOUR PURPOSE

Start with one of three base models (Augustine, Inverness, or Verō), select the configurations to best suit your facility needs, add the options and accessories to aide in elevating patient experience.

OPTIONS & ACCESSORIES

Select from multiple options & accessories designed to enhance the patient and caregiver experience: side tables, pillows, heat & massage, and more.

Many more options available

VERŌ

TREATMENT RECLINER

PREMIUM SERIES

Verō PRC with optional 3" dual casters, urethane arm caps and headrest cover & pillow set – shown in Bottle (85) and Limestone (57).

Continuously evolving patient care requirements create opportunities for enhanced solutions. The Verō provides total flexibility in matching your application with exactly the features you require and the comfort your patients demand.

The Verō recliner's modular design allows clinicians to choose the best configuration to perfectly suit their specific needs:

- New Power Recline model (Verō PRC)!
- Multiple recline options and infinite position backrest promote patient independence.
- Bilateral and foot-operated controls provide clinician comfort and convenience.
- Durable construction and easy-to-clean surfaces enable increased efficiency.

**DESIGNED BY WINCO, BUILT BY YOU.

TRENDELENBURG

Verō Recliners are available with Trendelenburg (6 series) or without (5 series). On the **Verō**, Trendelenburg is controlled with bilateral access foot levers, reducing clinician's need to bend to reach controls. PRC models (with power recline) offer push-button recovery from Trendelenburg to minimize potential for clinician back strain.

Exclusive to **Verō**, **Secure-Glide™** provides gentle patient positioning while avoiding injury to caregivers. The controlled descent helps eliminate any need or natural reflex to manually control the rapid patient descent in emergency situations.

Secure-Glide™ for stress-free positioning

Foot lever for exclusive Secure-Glide™ Trendelenburg descent

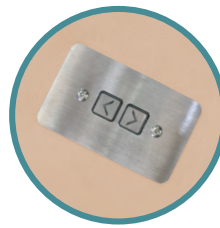

RECLINE CONTROL OPTIONS

All **Verō** models feature convenient and comfortable infinite positioning of the back rest. With **Verō**, you have three options available for controlling recliner positioning:

Power Easy recline and recovery from trendelenburg at the push of a button. One switch standard. Dual switches and/or pendant options available.

Gas Assist provides positive locking position of the backrest angle with gas cylinder assisted operation. Locking action is controlled by easily accessed bilateral control levers.

Push-Back allows seamless positioning of the desired back rest angle. The gravity operated, gentle resistance designed into the chair maintains selected positioning.

Power Recline
PRC models

Gas Assist
5X and 6X models

Push Back
5X and 6X models

ARM OPTIONS

Functionality is enhanced through the availability of two arm configurations. Standard fixed arms are cost-effective, sturdy and durable. Optional swing arms allow 180 degree movement of the arm for convenient cleaning access and barrier-free patient transfer.

Swing Arm Option Swing arms are ideal when patient transfer and easy access are important considerations. Each side of the **Verō** is easily opened with convenient foot controls.

Fixed Arm Option Fixed arms are suitable for most general purpose operations when transfer of patient is not required or where working space is limited.

Upholstered Swing Arm Shown

ARM CAP OPTIONS

Urethane Cap Option Urethane arm caps provides a unique, upscale appearance and added durability.

Urethane Arm Cap
Option

MATCH YOUR PURPOSE

The **Verō** modular design allows choices in how the chair is anchored or moved. Whether stationary or for patient transport*, **Verō** has a perfect solution.

Pedestal Feet When mobility is not required or desired, pedestal feet provide a less clinical look and a lower seat height.

Casters provide ease of movement for cleaning, maintenance and staging. Two size options are available. Both include lockable, foot lever release controls.

3" Casters Lower seated height with the flexibility of mobility.

5" Casters are the optimal choice for ease in movement.

It is recommended that after moving the chair always lock the casters prior to patient ingress/egress.

FOOT PLATE

Patients will appreciate the added comfort of the retractable foot plate.

The optional footplate is available for models with 5" casters. Its sturdy design is weight-bearing.

The footplate locks as weight is applied to prevent unwanted or unexpected movement.

Note: Patients should be assisted at all times by a staff member when using the footplate.

Footplate is easily positioned by foot.

PUSH HANDLE OPTION

The push handle option is recommended in combination with footplate models if the chair is to be used for in-facility patient transport*.

**Only 5X, 6X or PRC models with footplate and push handle are suitable for patient transport. See User Manual for important details.*

SIZE / CAPACITY OPTIONS FOR MAXIMIZED FLEXIBILITY

The **Verō** is available in two sizes: standard and X-large. No matter which size is specified, **Verō** offers comfort, beauty and durability.

- Standard seat width is 22.5" between arms with a 350 pound weight capacity. This chair makes petite to average size patients feel right at home.
- X-large seat width is 26.5" between arms with a 500 pound weight capacity, making it suitable to care for Bariatric patients and provide a comfortable experience.

X-Large 500 lb Capacity

Standard 350 lb Capacity

TABLE OPTIONS

There are three table options; standard, pivot and premium. All tables on the **Verō** are available in left, right or both configurations and can be ordered in a variety of combinations to suit facility requirements and clinician preference. All feature a stain resistant, non-porous material and all but the pivot table have a lip edge design to contain small spills.

Standard Table

Pivot Table

Premium Table

Each standard table adds 2.75" (2.5" for XL) to the overall chair width when lowered. Each premium table adds 1.25" (1" for XL) to the overall chair width when lowered. This added width should be considered when ordering table options appropriate for your facility.

- **Standard table** This value priced lift-to-raise-and-lower table will be familiar to current Winco Elite series owners.
- **Pivot table** swivels so patient can have the table in front of them.
- **Premium table** features an intuitive single hand up/down feature with audible positive lock and release.

COMPLEMENT DESIGN & UTILITY

- **Heat Only Option** provides three patient-selected soothing warmth ranges for maximum comfort.
- **Heat and Massage Option** adds a selection of five gentle vibrating massage modes to the heat option, enhancing patient comfort level.
- **Optional Accessory Hook** The stainless steel hook remains flush until needed, making it a convenient choice for a Foley bag. Available for either left, right or both sides.
- **Optional IV Pole and Holder** for either left, right or both sides.
- **Headrest Cover and Armrest Covers** Covers extend the life of the headrest and armrests and are fastener-free, making them easy to lift on and off.

VERŌ PRC

POWER RECLINING CHAIR

KEY FEATURES

- Sealed two-button power switch embedded on the side of the chair (dual switches and/or wired pendant options available)
- Easy to clean and service
- Durable construction - thoroughly tested to withstand the demands of healthcare environments
- Power-return from Trendelenburg (Trendelenburg models only)
- **4-year limited warranty** on the power recline control module and actuator motor

Switch to the new Verō PRC

The Verō Power Reclining Chair (PRC) is the newest addition to our popular line of infinitely configurable Verō recliners. Verō PRC is comfortable and convenient for the patient while offering exceptional benefits to the caregiver and added value for facility managers. Caregivers can now assist patients up to 500 lbs at the push of a button with no fear of strain. Trendelenburg models are thoughtfully designed with the capability to **return patients upright from the trendelenburg position**, minimizing potential for caregiver injury.

A sealed power switch is embedded on the patient right side of the recliner for easy access. Add an optional second switch, at patient left side and/or a wired hand pendant for additional patient and caregiver convenience. Verō PRC powers the entire line of Verō recliners offering unmatched configurations, durability, patient comfort and caregiver peace of mind.

Contact Winco today to arrange for a demonstration of the Verō PRC or to request a quote!

INVERNESS

24-HOUR TREATMENT RECLINER

PREMIUM SERIES

The Inverness 24-Hour Treatment Recliner™ is superbly crafted with a suite of intuitive, practical and durable innovations to address patient and clinician comfort.

- Promotes patient independence with ultra-low effort, bilateral controls
- Supports clinician comfort with front-locking brake tabs and back-relieving side table heights
- Enhances facility efficiency with attractive, durable construction that is easy to clean

Thousands of documented hours of feedback and refinements create an ideal blend of daytime luxury with nocturnal comfort upon which patients truly can sleep through the night. The Inverness provides comfort, utility and flexibility for multiple treatment applications.

**ENHANCING THE PATIENT
AND CAREGIVER EXPERIENCE.**

DESIGNED WITH PATIENTS

Patient independence, with no need to rely on staff for assistance. We listened to patients and included:

- An infinitely adjustable backrest that locks in the chosen position
- An innovative design requiring 50% less pull force for one-handed positioning
- Patient comfort in every position; full upright to laying flat
- Wide padded seats, naturally curved armrests, accessible controls, and strategically located lumbar support

During development, many patients noted that they would choose clinics with this chair over those with another recliner model.

“I REALLY LOVED THE CHAIR AND WAS ABLE TO RELAX AND GET TREATMENT IN COMFORT.” - *William, Patient*

DESIGNED WITH THE FACILITY

The Inverness 24-Hour Treatment Recliner’s form and function make it a practical and valuable tool, easily expanding nocturnal capacity to existing clinics.

- Both arms swing out 180 degrees for barrier free patient transfer
- Innovative safety shields direct errant fluids and make cleaning a snap.
- Generous seat width and 500 pound weight capacity eliminate the need for multiple models.
- Swing arm design allows deployment of Trendelenburg function even when fully open.

We also took into account the unique requirements of older retrofit clinics. With the arms fully open, the Inverness will easily roll through a 34.5” opening!

“STAYS LOCKED SECURELY AND EASILY. CURVED ARM RESTS MORE COMFORTABLE FOR PATIENTS. LOOKS LESS CLINICAL. EASY TO USE AND MOVE. LESS PATIENT COMPLAINTS. PATIENTS ARE ABLE TO EASILY ADJUST BACK DURING TREATMENT.” - *Bridgette D., Clinic Manager*

DESIGNED WITH CLINICANS

We also listened to the clinician and designed:

- Higher patient positioning with side tables at an ideal level to reduce potential for back strain.
- Bilateral controls that are easily accessed from either side.
- Foot operated swing-arm latch releases, unique foot plate lock and Trendelenburg controls to reduce bending, stooping and straining.
- Gas cylinder and spring supported mechanism to significantly ease any required effort to help patient recline or sit upright.

We’ve strived to address everything, including never hidden, always accessible, front caster locks.

“GREAT CHAIR, EASY ON TECH’S BACK. BETTER OVERALL FOR THE PATIENT. EASY TO CLEAN AND MOVE. NICE JOB, GUYS AT WINCO! THANK YOU FOR THINKING OF THE WORKERS ALSO!” - *Christopher F., Technician*

HARMONY BDC

EXTRA WIDE BLOOD-DRAWING CHAIR

PHLEBOTOMY COLLECTION

Dual L-Arm Option Shown

Winco's Extra Wide Blood Drawing Chair combines functional design with quality and unmatched durability. The new Harmony BDC offers comfort and convenience with a variety of accessories to accommodate any medical setting where samples are drawn.

- Harmony BDC offered with multiple options to meet every clinic need.
- Model features include an adjustable-height, padded L-arm option for easy access and exceptional patient and clinician comfort.
- Industry leading 800 lb. capacity suitable for most patients or parent/child combinations.
- Six (6) high-impact, adjustable leveling feet provide stable seating on practically any surface.
- Manufactured with a sturdy, powder-coated steel frame for maximum strength and years of trouble-free service backed with a lifetime frame warranty.

ENHANCING THE PATIENT & CAREGIVER EXPERIENCE

Designed for bariatric applications, yet perfect for pediatric settings.

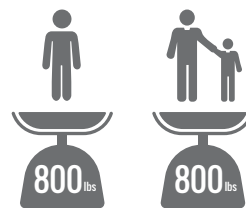

In Family Practice or Pediatric Care, the Harmony BDC doubles as a one-size-fits-all patients chair or to safely and comfortably seat both parent and child, helping to soothe patient anxiety. The Harmony BDC represents one of the widest and highest weight capacity blood-draw chairs in the industry, tested and verified to BIFMA* standards.

Dual L-Arm and Footrest Options Shown

WINCO HAS A HISTORY OF DESIGNING AND MANUFACTURING ROBUST, THOUGHTFUL PHLEBOTOMY SEATING SOLUTIONS. HARMONY BDC FEATURES INCLUDE:

- Wide, full-access seat (36.75" / 93.4 cm)
- Pinch resistant flip-up L-Arms provides a safer experience for patients and caregivers.
- Universal arm design enables easy switchover to left or right-side use as your space dictates. Conversion tools included.
- Rigidly tested to an 800 lb, total load capacity in any combination of occupants – Individual, parent/child, or patient/caregiver – under normal use.
- Designed and tested to BIFMA* standards.

HEALTHCARE ESSENTIALS

Task Seating, Treatment
Tables & Privacy Screens

ESSENTIALS COLLECTION

FUNDAMENTAL FURNISHING SOLUTIONS FOR HEALTHCARE

PRACTICAL SOLUTIONS FOR HEALTHCARE SPACES

The Essentials Collection includes caregiver seating, patient privacy, and treatment surface solutions that provide value, durability and comfort.

You depend on your medical furnishings to enable you to provide quality care within an environment that promotes the best overall patient experience. That's why Winco manufactures an array of healthcare furnishing options that can be customized to fit your practice's unique style.

Winco is a proud ISO 13485:2016 certified manufacturer. Additionally, the vast majority of our products are built in the U.S.A. and designed to enhance the patient and caregiver experience!

TASK SEATING SOLUTIONS TO MATCH YOUR NEEDS

KEY FEATURES

- WEIGHT CAPACITY: 250 lbs (113 kg)
- SEAT DIAMETER: 16.5" (41.9 cm)
- ADJUSTABLE SEAT-HEIGHT: 17" - 22.25" (Standard & Deluxe models) 23.5" - 33.75" (Tall Models)
- PADDED UPHOLSTERY: Available in your choice of 50+ vinyl colors
- 2" TWIN WHEEL CASTERS or HIGH RESISTANCE (HR) Casters

TASK STOOLS

STANDARD: 4300 / 4308 | DELUXE: 4400/4408

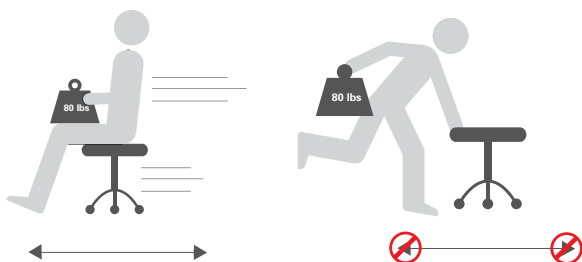

Multi-purpose gas-lift task stools. Standard models feature a high-density plastic base. Deluxe models feature a polished aluminum base. Upgrade any of the above models with an optional foot ring (FR).

TASK CHAIRS

STANDARD: 4350 / 4358 | DELUXE: 4450 / 4458 | TALL: 4380 / 4388

Versatile caregiver seating featuring "one-touch" seat height adjustment and height-adjustable seat backs. The Standard and Tall models each include a high-density plastic base. The Deluxe models include a polished aluminum base. Our Tall model includes provides an additional 11.5" in seat height and includes a foot ring. A foot ring (FR) can also be added to any of the standard or deluxe models.

HIGH RESISTANCE CASTERS

HR Casters allow free chair movement when weighted or occupied, but resist unnecessary chair movement when unweighted or when exiting the chair. *HR Casters may not release and roll freely if occupant weighs less than 80lbs.

SURFACE SOLUTIONS THAT FIT YOUR PRACTICE

PRIVESS™ CLEAR-VUE

MODULAR SCREENS

KEY FEATURES

Privess™ Clear-Vue screens provide a see-through protective barrier solution with flexible applications.

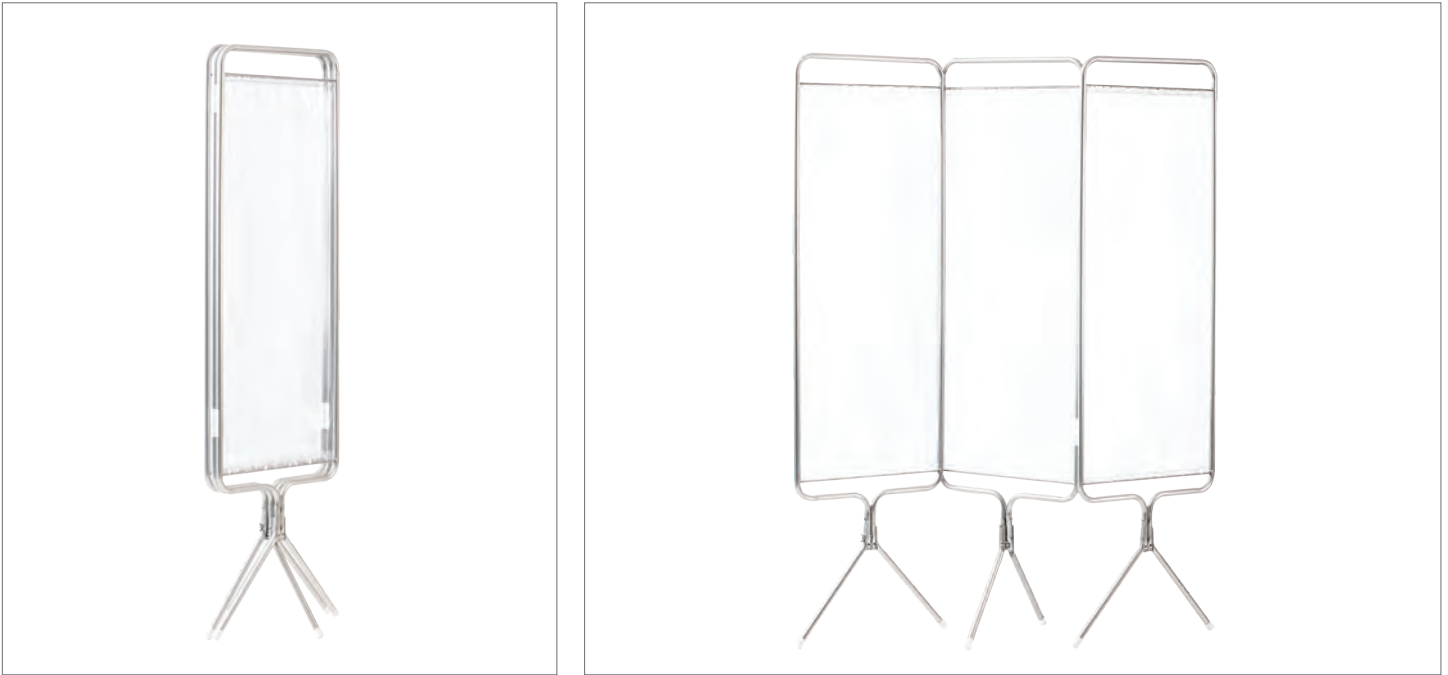

- Cost-effective
- Lightweight, portable and configurable
- Easily cleaned and disinfected
- Compact storage requirements

Privess™ Clear-Vue provides an additional layer of protection from airborne contaminants. The Clear-Vue feature is available as an option for 3 or 4 panel Privess™ Modular Screens.

The extreme flexibility makes Privess™ Clear-Vue a perfect solution for podiums and lecterns, workstations, student desks or for queuing situations where individuals may not be able to be adequately distanced and security concerns demand visibility.

Privess™ Modular Screens feature innovative clips that allow multiple screens to easily connect to one another to create unique shape and size solutions to fit any space or need.
