

Unmatched Pulse Oximetry Performance and Value

WristOx₂ 3150 with BLE

WristOx₂ Sensor Line

WristOx₂ Accessories

WristOx₂® Model 3150 with Bluetooth Low Energy (BLE)

Wrist-worn Pulse Oximeter

Engineered with Nonin Medical's proven PureSAT® SpO₂ technology, the **WristOx₂ 3150 with BLE** delivers highly accurate readings in a wide range of patient populations and settings.

The **WristOx₂ 3150 with BLE** is ideal for applications including ambulatory monitoring, remote wireless monitoring and overnight studies—providing the versatility and reliability that clinicians expect from Nonin.

The most advanced wrist-worn pulse oximeter available, the **WristOx₂ 3150 with BLE** features improved performance and reporting capabilities.

For Proven Performance, Count on Nonin.

Experience Nonin Quality and Greater Affordability

- Small size wears like a watch with large display screen and enhanced sensor connector design
- Transfer data securely and wirelessly to the NoninConnect app*, available on the Apple Store or download directly to nVision via USB cable
- Excellent for many clinical applications such as the six-minute walk test and overnight sleep studies
- Dependable design and construction—with industry leading three year warranty

*The NoninConnect app isn't cleared as a medical device

Focus On What Matters Most

Clinical Efficiency

Memory Volume Indicator Mode provides verification of record data during oxygen qualification studies and overnight sleep studies

1,080 hours of non-volatile memory at four-second sampling rate

Nonin's WristOx₂ sensors have been designed exclusively for use with WristOx₂ pulse oximeters and includes a selection of three styles and sizes

Clinical Effectiveness

The WristOx₂ Model 3150 with BLE is an ideal choice for applications where small, portable oximetry is needed

Long lasting, 44 hour battery life

Available in two assemblies:
Single Unit: includes sensor + wristband
Starter Kit: includes sensor, three wristbands, USB download cable, and nVision data management
